ABOUT THIS MAP

Lit from the south-west at golden hour. Relief is exaggerated for shading only. Region markers show the mapped centre of each acreage region, not a boundary or a particular property. This is a shaded-relief illustration, not a survey, and not for navigation.

MEASURED AT EACH REGION'S CENTRE

Elevation and relief (the height difference within 5 km) in metres; Km is the straight-line distance to downtown Calgary. From the same terrain model that draws this map.
